DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on March 10, 2006 has been entered. No claim has been amended, or added. Claims 1, 3-5, 7, 9, 10, 14 and 17-21 have been cancelled. Claims 11 and 13 are still pending in this application, with Claim 11 being independent.
2. The drawings were received on March 10, 2006. These drawings are acceptable.

Allowable Subject Matter

3. Claims 11 and 13 are allowed.
4. The following is an examiner's statement of reasons for allowance:
Applicant teaches a motorcycle rear fender including a tail lamp, the tail lamp having a plurality of light emitting elements mounted on a lamp substrate, with each of the light emitting elements extending in a diagonal direction relative to the horizontal direction. A lens covers the light emitting elements and redirects light from such elements in the horizontal direction. The rear fender includes a concave mounting section for receiving a circuit substrate for the light emitting elements below the lamp substrate.

No prior art was found teaching individually, or suggesting in combination, all of the features of the applicants' invention, specifically the claimed tail light in combination with a motorcycle rear fender having a concave mounting portion for receiving a light emitting elements circuit substrate disposed below the lamp substrate.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
